Complete each line on the top portion of the voucher. Be sure to include all information requested.
Round to whole gallons and whole dollars.

Listing Purchase Information:

Provide all requested information for all gallons purchased tax-exempt and used for a taxable purpose.

Calculating Tax (Line 2):

Multiply the total taxable gallons (Line 1) (x) the applicable tax rate to calculate the tax due. Refer to the tax rate chart at the bottom of the form instructions for applicable tax rates and effective dates.

Penalty (Line 3):

Calculate any penalty due by multiplying the total tax due (Line 2) by 5 percent per month up to 25 percent of the total tax due.

Interest (Line 4):

Calculate any interest due by multiplying the total tax due (Line 2) by the annual interest rate. Divide this number by 365 (366 in a leap year) and multiply the result by the number of days payment is late. The annual interest rate is subject to change each year. You may access the annual interest rate on the Department's website at dor.mo.gov/taxation/statutory-interest-rates.html.

Total Paid (Line 5):

Add Lines 2, 3, and 4 for the total paid on voucher.
