

The seal of the Missouri Department of Revenue is a large, circular emblem. It features a central shield with a scale of justice and a sword, surrounded by a wreath. The words "DEPARTMENT OF REVENUE" are written in an arc above the shield, and "STATE OF MISSOURI" is written in an arc below it. The year "MDCCCXX" (1820) is at the bottom. The entire seal is surrounded by a decorative border of stars and a rope-like pattern.

Section 1: Introduction

The Missouri Department of Revenue in conjunction with the Internal Revenue Service (IRS) accepts Individual Income Tax returns and corresponding forms and schedules for tax year 2010, 2011 and 2012 via the Modernized E-File system (MeF). The transmission method is a Web Service using Simple Object Access Protocol (SOAP) with attachments messaging. The return data will be formatted using Extensible Markup Language (XML). Authorized E-File providers, also known as Electronic Return Originators (ERO's) can submit returns to the IRS MeF system for federal and state return processing. State returns can be submitted as a federal return with a state return attached, called a "Fed/State" return, or as a state return, known as a "Unlinked" submission. Each return (Fed/State or Unlinked) must be in a separate submission. Multiple submissions may be contained in a single message payload. Software developers must test with the department and receive approval prior to submitting live Fed/State or Unlinked returns.

Schema Version

The current 2012 schema version is MOIndividual2012v.1.0.

The current 2011 schema version is MOIndividual2011v4.0.

The current 2010 schema version is MOIndividual2010v2.0.

3. All XML data must be well formed.
