

The seal of the Missouri Department of Revenue is a large, circular emblem. It features a central shield with a scale of justice and a sword, surrounded by a wreath. The words "DEPARTMENT OF REVENUE" are written in an arc above the shield, and "SEAL OF THE MISSOURI DEPARTMENT OF REVENUE" is written in an arc below it. The year "MDCCCXX" (1820) is inscribed at the bottom of the seal. The entire seal is rendered in a light gray, semi-transparent style.

Introduction

The Missouri Department of Revenue in conjunction with the Internal Revenue Service (IRS) accepts Individual Income Tax returns and corresponding forms and schedules for tax year 2012, 2013 and 2014 via the Modernized E-File system (MeF). The transmission method is a Web Service using Simple Object Access Protocol (SOAP) with attachments messaging. The return data will be formatted using Extensible Markup Language (XML). Authorized E-File providers, also known as Electronic Return Originators (ERO's) can submit returns to the IRS MeF system for federal and state return processing. State returns can be submitted as a federal return with a state return attached, called a "Fed/State" return, or as a state return, known as a "Unlinked" submission. Each return (Fed/State or Unlinked) must be in a separate submission. Multiple submissions may be contained in a single message payload. Software developers must test with the department and receive approval prior to submitting live Fed/State or Unlinked returns.

The Department plans to begin accepting tests on **November 3, 2014**, when the IRS opens ATS. This date is subject to change. Notification will be sent via e-mail if this changes.
