Qualifications

To qualify for the credit, an individual must have made their principal dwelling accessible to an individual with a disability and the individual must be a permanent resident of the dwelling. For purpose of this credit, the term disability means a physical or mental impairment which substantially limits one or more of a person's major life activities that has lasted or that can be expected to last for a continuous period of not less than 12 months.

A taxpayer with federal adjusted gross income greater than \$30,000 but less than \$60,000 may receive a tax credit equal to 50 percent of the costs incurred up to \$2,500 per year.

A taxpayer with federal adjusted gross income of \$30,000 or less may receive a tax credit equal to 100 percent of the costs incurred up to \$2,500 per year.

A taxpayer with federal adjusted gross income of \$60,000 or greater does not qualify for the credit.

Any taxpayer that received a Dwelling Access Tax Credit in the preceding year is not eligible for the credit.

Other Information

The amount of credit claimed must be reduced by any amount of the costs already deducted from the taxpayer's federal adjusted gross income or to the extent any other credit has been claimed for the costs.

The approved credits will be applied against the Missouri tax liability and any excess refunded.

The total credits that may be approved for any fiscal year cannot exceed \$100,000.

Credits will be approved on a first-come, first-served basis and any claims received after the \$100,000 limit has been met will be denied.

If you incurred costs in more than one calendar year, you may combine the expenses and file one tax credit claim. For example: If you paid \$1,250 towards a renovation project in November 2012 and paid another \$1,250 upon completion of the project in February 2013, you may file a claim for the 2013 tax year and report total costs of \$2,500.
