

License offices throughout Missouri are awarded through a competitive bidding process. There are over 170 contracted license offices around the state. Each office is independently operated by the vendor awarded the contract for a particular office. The vendor's are responsible for salary and any other benefits they wish to offer their employees. They are not held to the same standards for salary and benefits that state employees are. However, they are required to abide by all state and federal laws just the same as any other business in Missouri. If you are currently employed with a license office and have questions about labor laws or have been employed and need help obtaining your final check please call the Division of Labor Standards at 573-751-3403. Have concerns about how an office is being operated, please contact the License Offices Bureau at LOB@dor.mo.gov or by phone at 573-526-4133.

Interested in working in a license office in Missouri? Below is a list of contractors and the offices they currently operate, along with a link to their website if available.
