A "candidate committee" set up under Section 130.011, RSMo who is required by the Internal Revenue Code Section 527 to file a Federal Form 1120-POL, but is not set up as a corporation, is not required to file the Form MO-1120.

If its assets (in or apportioned to Missouri) are over \$1,000,000, the corporation must complete and file Schedule MO-FT and Form MO-1120. Attach a copy of the balance sheet and any supporting schedules. CONSOLIDATED FEDERAL RETURN/SEPARATE MISSOURI RETURN

A corporation, which is a member of an affiliated group filing a consolidated federal income tax return, shall (if no Missouri consolidated return is filed) determine its federal taxable income as if it had filed a separate federal income tax return for the year.

The corporation must enclose a pro forma Federal Form 1120, with all pertinent schedules, wherein its separate federal taxable income is computed with Form MO-1120. The first four pages of the actual consolidated federal income tax return and an income statement, or a summary of profit companies for the year, must be attached. The complete consolidated federal return may be required upon an audit of the Missouri return. The corporation's federal income tax deduction will be the amount from the consolidated Federal Form 1120, Schedule J, Line 10 plus Line 5a multiplied by the ratio of the individual profit company divided by the total profit companies of the corporation. This amount will be multiplied by 50 percent to arrive at the Missouri corporation return's federal income tax deduction. For further clarification, see 12 CSR 10-2.090. The computed federal income tax deduction must be multiplied by 50 percent. See Form MO-1120, Part 3.

SUBSIDIARIES INCLUDED IN THE FILING OF THIS RETURN

If the corporation is filing a consolidated Missouri return, attach a separate schedule that lists the names of the subsidiaries, Federal Employer Identification Numbers (FEIN), and Missouri Tax Identification Numbers. **Subsidiaries must file a separate Form MO-1120 and Schedule MO-FT for franchise tax and attach their separate balance sheet.**

NET OPERATING LOSSES

Corporations that file a Missouri return with a federal net operating loss (NOL) must treat the loss under the provisions of the Internal Revenue Code. Corporations that file a consolidated federal and separate Missouri return shall compute the separate federal taxable income as if each member filed a separate federal return. The corporation is bound by the federal return election to carry losses forward or back, (i.e., if the loss is carried back on your federal return, the separate company loss must be carried back).

If there is a consolidated gain, the corporation may elect to carry the federal separate company loss forward or back pursuant to the Internal Revenue Code on a separate company basis in Missouri.

The only net operating loss subject to carry forward or carryback is the loss from your federal tax return. **Missouri does not have provisions for a state net operating loss deduction.** A negative number on Form MO-1120, Lines 8, 9, or 12 is not a net operating loss.

If your corporation is required to file an amended Missouri return to carryback a federal NOL, please provide the following information with your amended Form MO-1120:

- If your consolidated federal income is positive and you are carrying back a separate company loss, attach a copy of the consolidated Federal Form 1120 to document that there is no consolidated loss to be carried back.
- If your consolidated federal return is a loss for 2007 and the previous tax periods are consolidated losses, attach a copy of the consolidated Federal Form 1120 for 2007 and the consolidated Federal 1120 for the tax period being amended on a separate company basis.
- For tax periods that your consolidated and separate company incur a NOL that is carried back, attach a copy of the consolidated Federal Form 1139. Also include a revised income statement for the loss year and the amended tax period and a schedule showing the calculation of the federal income tax deduction on the amended return.

Note: Your corporation may need to file an amended return to adjust the federal income tax deduction for any tax period that the consolidated tax liability changes due to a NOL carryback, even if no loss exists to be carried back on a separate company basis.

REPORTABLE TRANSACTION DISCLOSURE STATEMENT

FEDERAL FORM 8886

Every corporation must include with the Missouri return a copy of each Federal Form 8886 that was filed with the IRS as part of its federal return or as part of a consolidated federal return.

DECLARATION OF ESTIMATED TAX

Every corporation subject to income tax in this state must make a declaration of its estimated tax for the taxable year on Form MO-1120ES, if its Missouri estimated tax could reasonably be expected to be at least \$250 (Section 143.521, RSMo).

If an affiliated group of corporations file a Missouri consolidated income tax return for the taxable year, its Missouri estimated tax payments may be combined on Form MO-1120 (12 CSR 10-2.045(39)).

Estimated tax payments may be applied against a franchise tax liability.

A corporation may amend its declaration on Form MO-1120ES.

Mail declaration of estimated tax payments to: **Missouri Department of Revenue, P.O. Box 3020, Jefferson City, MO 65105-3020**. Make check payable to Director of Revenue and include your Missouri Tax Identification Number on your check.

EXTENSION OF TIME TO FILE AND PAY

If a corporation has been granted an extension of time to file its federal income tax return, the time for filing the Missouri corporation income/franchise tax return is automatically extended for the same period of time. A copy of the Federal Extension, Form 7004, must be attached to the Form MO-1120 when filed.

An extension of time to file a corporation income/franchise tax return does not extend the time for payment of the tax. The corporation must pay, on or before the original due date, the amount estimated as its corporation income tax and corporation franchise tax for the taxable year. Submit this amount with Form MO-7004 and mail to: **Missouri Department of Revenue, P.O. Box 3365, Jefferson City, MO 65105-3365**.

If a corporation files a Form MO-7004, it should attach a copy of the federal extension. To obtain a Form MO-7004, access the Department of Revenue's web site at www.dor.mo.gov/tax/forms/ or call (800) 877-6881.

LINE 27 — REFUND

Enter the total of Line 24 less Lines 25 and 26. This is the amount to be refunded. No refund of less than \$1.00 will be made. If there is any other liability owed the state of Missouri, the refund may be applied to that liability (Sections 143.781, 143.782, 143.783, and 143.784, RSMo). The corporation will be notified if any debts are offset with the refund.

LINE 28 — UNDERPAYMENT

Enter the underpayment if Line 16 is larger than Line 24.

LINE 29 — INTEREST, PENALTY, UNDERPAYMENT OF ESTIMATED TAX

Penalty / Failure to File

Enter the amount of penalty computed. If the return is not filed by the due date, including extensions of time to file, a penalty of 5 percent per month (not to exceed 25 percent in the aggregate) is charged during the period of such failure.

Penalty / Failure to Pay

If the tax due is not paid, unless an extension of time to pay has been granted, penalty of 5 percent is charged with respect to that part of the total tax for the year which is not paid by the original due date of the return. The penalty will be waived if: (a) the amount of tax paid on or before the original due date of the return is at least 90 percent; and (b) the balance of the tax due is paid on or before the due date of the return, including extensions of time (Section 143.751, RSMo).

Underpayment of Estimated Tax

Enter the additions to tax for underpayment of estimated tax from Schedule MO-2220, Line 26. If the total payment and credit amount on Line 23 is less than 90 percent of the amount on Line 13, or if the estimated tax payments were not paid in full or timely, additions to tax for failure to pay enough estimated taxes may be owed. However, the corporation may be able to meet one of the exceptions explained on Schedule MO-2220. Attach a completed Schedule MO-2220. If there

is an overpayment on Line 24, the Department of Revenue will reduce the overpayment by the additions to tax amount (12 CSR 10-2.067 and Section 143.761, RSMo).

LINE 30 — TOTAL DUE

Enter the total of Lines 28 and 29. Attach a check or money order for the amount due payable to the Missouri Director of Revenue. Include the corporation's Missouri Tax Identification Number on the check or money order (U.S. funds only).

PART 1 MISSOURI MODIFICATIONS — ADDITIONS

LINE 1 — STATE AND LOCAL BOND INTEREST (EXCEPT MISSOURI)

Enter on Line 1a all interest from state and local bonds, excluding Missouri (Section 143.121.2(b), RSMo).

MO-1065, must be attached to the Form MO-1120.

LINE 3 — MISSOURI DEPRECIATION BASIS ADJUSTMENT

See Section 143.121.2(c), RSMo for more information. For examples and more information, access the Department of Revenue's web site at www.dor.mo.gov/tax.

LINE 4 — NET OPERATING LOSS MODIFICATION

If a net operating loss deduction is allowed for this tax year, and if, in the tax year of the corresponding net operating loss, total addition modifications exceeded total subtraction modifications, enter the smaller of:

Net operating loss deduction attributable to the loss year (tax year in which the net operating loss occurred)

OR

Cumulative net operating loss deductions attributable to the loss year that are allowed for this tax year and all prior tax years

plus the net addition modification (amount that addition modifications exceed subtraction modifications) for the loss year

minus the total net operating loss for the loss year.

The above items are each considered to be a positive amount for purposes of this calculation. If the result of combining amounts is negative, use zero.

If the total net operating loss deduction for this tax year consists of net operating losses from more than one tax year, calculate the modification separately for each loss and enter the total.

Attach Form MO-5090, Net Operating Loss Modification Worksheet, if, in the tax year of the net operating loss, total addition modifications exceed total subtraction modifications.

NOTE: This entry is a modification and not the net operating loss. The net operating loss is shown only on Form MO-1120, Line 1.

LINE 5 — DONATIONS CLAIMED FOR THE FOOD PANTRY TAX CREDIT THAT WERE DEDUCTED FROM FEDERAL TAXABLE INCOME

Enter on Line 1b the amount of interest on indebtedness and expenses associated with the production of interest and dividend income on federal obligations shown on Line 1a. The expenses must exceed \$500. Refer to Section 143.121.3(a), RSMo, for further explanation.

In arriving at the amount of related expenses, the taxpayer may use actual expenses or a reasonable estimate. In general, the taxpayer should use the same or similar method to that used to compute related expenses for federal income tax purposes, provided that the method reasonably reflects related expenses for Missouri exempt income.

If a taxpayer fails to compute reasonable related expenses, the Director of Revenue will make adjustments based on the best information made available. If sufficient information is not made available or if the taxpayer's records do not provide sufficient information, the Director of Revenue will use the following formula to compute related expenses:

$$\frac{\text{Exempt income}}{\text{Total income}} \times \text{Expense items} = \text{Reduction to exempt income}$$

The principal expense item in this formula is interest expense; however, the Director of Revenue may include other expense items because of their direct relationship to the production of exempt income. The taxpayer may propose an alternative method provided that it properly reflects the amount of related expenses.

Enter on **Line 1** the net amount of Line 1a less Line 1b.

LINE 2 — FEDERALLY TAXABLE — MISSOURI EXEMPT OBLIGATION

The amount of any bond issued by the Missouri Higher Education Loan Authority (MOHELA) including interest or proceeds resulting from the sale of the bond is exempt from Missouri tax. Enter the exempt amount on Line 2 and provide documentation with the return.

If a taxpayer's federal taxable income prior to January 1, 1973, included any gain from a sale or other disposition of property, which had a higher adjusted basis to the taxpayer for Missouri income tax purposes than for federal income tax purposes, a modification must be made to adjust for the difference in basis (12 CSR 10-2.020 and Section 143.121.3(b), RSMo).

LINE 4 — PREVIOUSLY TAXED INCOME

Enter the amount of any income or gain included in federal taxable income to the extent it was properly reported as income or gain on a prior Form MO-1120, Corporation Income/Franchise Tax Return, filed under Missouri laws in effect prior to January 1, 1973 (12 CSR 10-2.025 and Section 143.121.3(c), RSMo).

LINE 7 — FIDUCIARY AND PARTNERSHIP ADJUSTMENT (FROM FORM MO-1041 AND FORM MO-1065)

See Section 143.121.3(g), RSMo for more information. For examples and more information, access the Department of Revenue's web site at www.dor.mo.gov/tax.

LINE 9 — SUBTRACTION MODIFICATION OFFSETTING PREVIOUS ADDITION MODIFICATION ON 1996, 1997, AND 1998 TAX YEARS

If filing a consolidated federal and separate Missouri return, the federal income tax deduction must be computed as follows:

Enter on Part 3, Line 1, federal tax from the consolidated Schedule J, Line 10. Enter on Part 3, Line 2, the foreign tax credit from the consolidated Schedule J, Line 5a. Enter on Part 3, Line 3, half of Lines 1 and 2. Enter on Part 3, Line 4, the numerator (the amount of separate company federal taxable income). Enter on Part 3, Line 5, the denominator (total of all positive separate company federal taxable incomes; companies which incurred a loss must not be included in the denominator). Divide Line 4 by Line 5 and enter the percentage in the box on Line 6 (round percentage to four digits to the right of the decimal point, such as 12.3456 percent). Multiply Line 3 by the percentage and enter on Part 3, Line 6 and on Form MO-1120, Page 1, Line 7. Refer to 12 CSR 10-2.090 and 12 CSR 10-2.165 for further explanation. Attach the consolidated Federal Form 1120, consolidated Schedule J, and an income statement or summary of profit companies.

A separate Form MO-1120 must be filed for each loss year carryback. For example, if you have an IRS audit or federal correction that includes a Net Operating Loss, one amended return must be filed for the federal audit and a separate amended return must be filed for the NOL.

PART 5 LOSS CARRYBACK OR TAX CREDIT CARRYBACK—AMENDED RETURN ONLY

Complete Part 5 when there is a loss carryback and/or credit carryback. A loss would include a net operating loss, capital loss, or product liability loss. A loss carryback is required to be filed by the 15th day of the 39th month following the end of the loss year (Section 143.801.6, RSMo). ASSEMBLE YOUR RETURN

Assemble any forms and/or schedules behind Form MO-1120 in order of the "Attachment Sequence No." shown in the upper right corner of the form and/or schedule. Put forms without an attachment sequence number next. If you have supporting documentation, arrange them in the same order of forms and/or schedules they support and attach them behind the schedule they support.

RELEASE OF INFORMATION

The Department of Revenue can only release confidential information to corporate officers, authorized individuals having power of attorney, the preparer, or any member of his/her firm, or if internally prepared, any member of the internal staff, when the authorization box is checked. When the authorization box is checked, this authorizes the Missouri Director of Revenue or delegate to discuss **this** return and attachments with the preparer whose signature appears on the Form MO-1120 or with any member of his/her firm or if internally prepared, any member of the internal staff.

The Department of Revenue strives to assist taxpayers in their inquiries; however, the Department of Revenue is bound by confidentiality statutes dealing with the release of confidential information. To update corporate officers, send the information to: **Taxation Bureau, P.O. Box 3300, Jefferson City, MO 65105-3300**. These procedures are to protect the taxpayer from unauthorized disclosure of financial records.

SCHEDULE MO-MS INSTRUCTIONS

This information is for guidance only and does not state the complete law.

GENERAL INSTRUCTIONS

Complete the Schedule MO-MS if taxable income is not 100 percent from Missouri sources. This form must be completed even if Missouri taxable income is zero. If the corporation owns a percentage of a partnership(s), the partnership factors must be multiplied by the corporation's percentage of ownership, and then added into the corporation's apportionment factors.

APPORTIONMENT ELECTION

Missouri Statutes provide seven methods for determining Missouri taxable income from Missouri sources. Choose only **one** of the seven methods and enter the method number on Form MO-1120, Line 9. You may change methods from year to year provided you do not file a consolidated Missouri return (see 12 CSR 10-2.045).

Pursuant to Section 32.200, RSMo, Article IV, 2, financial organizations, personal service corporations, and public utilities cannot elect to use apportionment method one. They will need to elect one of the other available methods.

Once an election has been made, it cannot be changed with respect to the same taxable period.

METHOD 1

Multistate Allocation and Three Factor Apportionment (Multistate Tax Compact — Section 32.200, RSMo). See instructions for completing Method One.

METHOD 2

Business Transaction Single Factor Apportionment — Section 143.451.2(2), RSMo. See instructions for completing Method Two.

METHOD 3

Transportation — Section 143.451.3, RSMo. A detailed explanation must be attached.

METHOD 4

Railroad — Section 143.451.4, RSMo. A detailed explanation must be attached.

METHOD 5

Interstate Bridge — Section 143.451.5, RSMo. A detailed explanation must be attached.

METHOD 6

Telephone and Telegraph — Section 143.451.6, RSMo. A detailed explanation must be attached.

METHOD 7

Other Approved Method — This method can only be used with prior approval from the Missouri Director of Revenue. A letter of approval must be attached to the return (Section 143.461.2, RSMo).

If the Schedule MO-MS is not completed, a detailed explanation or letter of approval from the Missouri Director of Revenue must be attached, or the apportionment will be adjusted to 100 percent.

METHOD ONE THREE FACTOR INSTRUCTIONS

A taxpayer must have income from business activity taxable by this state and at least one other state to allocate and apportion income. Income from business activity includes business and nonbusiness income. The taxpayer's income will be allocated and apportioned in accordance with the Multistate Tax Compact. The first step is to determine which portion of the taxpayer's entire net income constitutes "business income" and which portion constitutes "nonbusiness income." The various items of nonbusiness income are directly allocated to specific states. The business income of the taxpayer is divided between the states in which the business is conducted pursuant to the property, payroll, and sales apportionment factors. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income attributable to this state by the apportionment formula constitutes the amount of the taxpayer's partial Missouri taxable income.

BUSINESS AND NONBUSINESS INCOME DEFINED

"Business income" is income arising from transactions and activities in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations. "Nonbusiness income" means all income other than business income (See 12 CSR 10-2.075 for examples). The classification of income by the labels customarily given them, such as interest, dividends, rents, and royalties, is no aid in determining whether that income is business or nonbusiness income.

TAXABLE IN ANOTHER STATE

A taxpayer is "taxable in another state" if it meets either one of two tests: (a) if by reason of business activity in another state the taxpayer is subject to one of the types of taxes specified, namely: a net income tax, a franchise tax measured by net income, a franchise tax for the

privilege of doing business, or a corporate stock tax; or (b) if another state has jurisdiction to subject the taxpayer to a net income tax, regardless of whether or not that state imposes such a tax on the taxpayer. The first test is applicable only if a taxpayer carries on business activities in another state. If the taxpayer voluntarily files and pays one or more of such taxes when not required to do so by the laws of that state or pays a minimal fee for qualification, organization, or for the privilege of doing business in that state, but: (a) does not actually engage in business activities in that state; or (b) does actually engage in some activity, not sufficient for nexus, and the minimum tax bears no relation to the corporation's activities within such state, the taxpayer is not "taxable" in another state. The second test applies if the taxpayer's business activities are sufficient to give the state jurisdiction to impose a net income tax under the Constitution and statutes of the United States. Jurisdiction to tax is not present where the state is prohibited from imposing the tax by reason of the provisions of Public Law 86-272, 15 U.S.C.A. Sections 381-385. If you believe you do not have sufficient nexus and you are not liable for Missouri tax, you need to contact the Customer Services Division, P.O. Box 295, Jefferson City, MO 65105-0295 or telephone (573) 522-3732 to request a Form 4458, Business Activity Questionnaire or visit www.dor.mo.gov/tax.

Any taxpayer having income from business activity which is taxable both within and without this state, other than activity as a financial organization or public utility or the rendering of purely personal services by an individual, shall allocate and apportion his net income as provided in Section 32.200, RSMo. If a taxpayer has income from business activity as a public utility, but derives the greater percentage of his income from activities subject to Section 32.200, Article IV, RSMo, the taxpayer may elect to allocate and apportion his entire net income as provided in Section 32.200, RSMo.

Complete Part 2, Lines 1 through 4. Enter Line 4 on Form MO-1120, Page 1, Line 9.

LINES 1A AND 1B — PROPERTY FACTOR

The numerator of the property factor includes the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the income year for the production of business income. The denominator is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the income year for the production of business income.

Property owned by the taxpayer in transit between locations of the taxpayer is considered to be at the destination for purposes of the property factor. Property in transit between a buyer and seller, which is included by a taxpayer in the denominator of its property factor in accordance with its regular accounting practices, is included in the numerator according to the state of destination. The value of mobile or movable property, such as construction equipment, trucks or leased electronic equipment, which is located within and without this state, is based upon the ratio which the time the property was physically present or was used in this state bears to the total time or use of the property everywhere during the income year. An automobile assigned to a traveling employee is included in the numerator of the factor of the state to which the employee's compensation is assigned under the payroll factor or in the numerator of the state in which the automobile is licensed.

Property owned by the taxpayer is valued at its original cost. As a general rule "original cost" is deemed to be the basis of the property for federal income tax purposes (prior to any federal adjustments) at the time of acquisition by the taxpayer and adjusted by subsequent capital additions or improvements thereto and partial disposition thereof, by reason of sale, exchange, abandonment, etc. Property rented by the taxpayer is valued at eight times the net annual rental rate. The net annual rental rate is the total annual rental rate paid by the taxpayer, less total annual rental rate received by the taxpayer from subtenants. As a general rule, the average value of property owned by the taxpayer is determined by averaging the values at the beginning and ending of the income year. However, the Missouri Director of Revenue may

require averaging by monthly values if such method of averaging is reasonably required to properly reflect the average value of the taxpayer's property for the income year.

LINES 2A AND 2B — PAYROLL FACTOR

The payroll factor includes only compensation that is attributable to the business income subject to apportionment. The compensation of any employee whose activities are connected primarily with nonbusiness income shall be excluded from the factor. The denominator of the payroll factor is the total compensation paid everywhere during the income year. Accordingly, compensation paid to employees whose services are performed entirely in a state where the taxpayer is exempt from taxation, for example, Public Law 86-272, is included in the denominator of the payroll factor. The numerator of the payroll factor is the total amount paid in this state during the income year by the taxpayer for compensation. Compensation is paid in this state if any one of the following tests, applied consecutively, is met: (a) the employee's service is performed entirely within this state; (b) the employee's service is performed both within and without this state, but the service performed without the state, is incidental to the employee's service within the state (the word "incidental" means any service which is temporary or transitory in nature, or which is rendered in connection with an isolated transaction); (c) if the employee's services are performed both within and without this state, the employee's compensation is attributed to this state: (1) if the employee's base of operations is in this state; or (2) if there is no base of operations in any state in which some part of the service is performed, but the place from which the service is directed or controlled is in this state; or (3) if the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed but the employee's residence is in this state. The term "base of operation" is the place of more or less permanent nature from which the employee starts his work and to which he customarily returns in order to receive instructions from the taxpayer or communications from his customers or other persons, or to replenish stock or other material, repair equipment, or perform any other functions necessary to the exercise of his trade or profession at some other point or points.

LINES 3A AND 3B — SALES FACTOR

The denominator of the sales factor is generally all gross receipts derived by a taxpayer from transactions and activities in the course of its regular trade or business operations that produce business income as defined.

In the case of a taxpayer whose business activity consists of manufacturing and selling, or purchasing and reselling goods or products, "sales" includes all gross receipts from the sales of such goods or products. Gross receipts for this purpose means gross sales, less returns and allowances, and includes all interest income, service charges, carrying charges, or time-price differential charges incidental to such sales. Federal and state excise taxes (including sales taxes) are included as part of such receipts if such taxes are passed on to the buyer or included as part of the selling price of the product. The term "sales" also includes gross receipts derived by a taxpayer from business transactions or activities which are incidental to its principal business activity and which are includable in business income. As applied to a taxpayer engaged in a business activity other than the manufacturing and selling, or purchasing and reselling of property, "sales" includes the gross receipts from the taxpayer's business activity. In the case of cost plus fixed fee contracts, such as the operation of a government owned plant for a fee, gross receipts includes the entire reimbursed cost, plus the fee. "Sales" includes the gross receipts from the rental, lease, or licensing the use of the property, such as patents and copyrights.

The numerator of the sales factor includes the gross receipts from sales which are attributable to this state, and includes all interest income, service charges, carrying charges, or time-price differential charges incidental to such sales, regardless of the place where the accounting records are maintained or the location of the contract or other evidence of indebtedness. Gross receipts from the sales of tangible personal property (except sales to the United States Government) are in this state if the property is delivered or shipped to a purchaser within this state, regardless of the f.o.b. point or other conditions of sale; or if the property is shipped from an office, store, warehouse, factory, or other

place of storage in this state and the taxpayer is not taxable in the state of the purchaser.

Sales to the United States Government: Gross receipts from the sales of tangible personal property to the United States Government are in this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state. Only sales for which the United States Government makes direct payment to the seller pursuant to the terms of its contract constitute sales to the United States Government.

Sales other than sales of tangible personal property are in this state if: (a) the income-producing activity is performed in this state; or (b) the income-producing activity is performed both within and without this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

LINE 4 — APPORTIONMENT FACTOR

Add percentages on Lines 1, 2, and 3, and divide by factors present. **If one or more of the three factors does not exist in the denominator, determine the apportionment factor by dividing by the number of factors present.**

STOP HERE! If nonbusiness income is not claimed, enter the percentage from Line 4 on Form MO-1120, Page 1, Line 9.

STEP 2

Complete Part 2, Lines 5 through 14 and enter Line 14 on Form MO-1120, Page 1, Line 9. The classification of income by the labels customarily given them, such as interest, dividends, rents, and royalties, is no aid in determining whether that income is business or nonbusiness income. **Nonbusiness income will be considered only if a detailed Schedule MO-NBI is completed and attached.**

ALLOCATION OF NONBUSINESS INCOME

For this purpose, "commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.

Rents and royalties from real or tangible personal property, capital gains, interest, or patent or copyright royalties, and dividends, to the extent that they constitute nonbusiness income, shall be allocated as follows:

- (a) Net rents and royalties from real property located in this state are allocable to this state.
- (b) Net rents and royalties from tangible personal property are allocable to this state: (1) if and to the extent that the property is utilized in this state; or (2) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of, or taxable in, the state in which the property is utilized. The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days the property was physically located in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all royalty or rental periods during the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payor obtained possession.
- (c) Capital gains and losses from sales of real property located in this state are allocable to this state.
- (d) Capital gains and losses from sales of tangible personal property are allocable to this state if: (1) the property had a situs in this state at the time of the sale; or (2) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

- (e) Certain capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.
- (f) Certain interest is allocable to this state if the taxpayer's commercial domicile is in this state.
- (g) Patent and copyright royalties are allocable to this state: (1) if and to the extent that the patent or copyright is utilized by the taxpayer in this state; or (2) if and to the extent that the patent or copyright is utilized by the taxpayer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state. A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from patent royalties or copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent or copyright is utilized in the state in which the taxpayer's commercial domicile is located.
- (h) Certain dividends are allocable to this state if the taxpayer's commercial domicile is in this state (see 12 CSR 10-2.075).

METHOD TWO SINGLE FACTOR INSTRUCTIONS

STEP 1

Complete Part 1, Lines 1 through 7. The numerator of the single factor apportionment method is one-half the gross receipts from sales transacted partly within and partly without this state, plus the gross receipts from sales transacted wholly within this state. The denominator is the gross receipts from all sales. (Where sales do not accurately reflect the volume of business.) **STOP HERE** if you do not have any wholly passive investment income from outside Missouri or dividends from a non-Missouri payor and enter Line 7 on Form MO-1120, Page 1, Line 9.

STEP 2

Complete Part 1, Lines 8 through 16. Enter Line 16 on Form MO-1120, Page 1, Line 9.

Wholly passive investment income from outside Missouri will be considered only with an attached detailed explanation.

Missouri corporate income tax is imposed upon Missouri taxable income. Missouri taxable income shall be so much of a corporation's federal taxable

income for the taxable year with modification as is derived from sources within Missouri as provided. When a corporation elects single sales factor apportionment, the apportionment and allocation of the listed items is as follows:

Royalties: Royalties are included in Missouri taxable income — all sources and are subject to apportionment by inclusion in the numerator of the apportionment factor as wholly within or partly within and partly without as appropriate; provided however, royalties received from an entity located and operating solely in a foreign country or countries and received from the licensing of trademarks, trade names, or patents may be allocated as wholly passive investment income.

Interest: Interest income from loans or investments made by the taxpayer are an important part of the business and are subject to apportionment by inclusion in the numerator of the apportionment factor as wholly within or partly within and partly without as appropriate; provided however, interest income earned on non-operating excess funds invested by the corporation's out-of-state parent company and invested in another state may be allocated as wholly passive investment income. In addition, interest income received from non-Missouri municipal bonds may be allocated as wholly passive investment income.

Rent: Rent income is included in Missouri taxable income — all sources and is subject to apportionment by inclusion in the numerator of the apportionment factor as wholly within or partly within and partly without as appropriate; provided however, rent income from a passive investment outside of Missouri where the corporation had no control of management may be included in the apportionment fraction as a transaction wholly without Missouri.

Capital Gain: Capital Gain income is included in Missouri taxable income — all sources and is subject to apportionment by inclusion in the numerator of the apportionment factor as wholly within or partly within and partly without as appropriate.

Dividends: Dividends to the extent included in federal taxable income are subtracted in determining Missouri taxable income. Dividends from a Missouri payor are apportioned and then subtracted from apportioned income. Dividends from non-Missouri payors are subtracted on the MO-MS schedule in computation of Partial Missouri taxable income — Missouri Sources.

NOTE: If income is allocated as wholly passive investment income, any related expenses must also be allocated.

METHOD THREE, FOUR, FIVE, OR SIX, INSTRUCTIONS

Enter Missouri miles, total miles, and percentage in the apportionment section on Schedule MO-MS, page 1, if applicable.

METHOD SEVEN INSTRUCTIONS

Method Seven can only be used with prior approval from the Missouri Director of Revenue. **Letter of approval must be attached to the return or 100 percent will be assessed (Section 143.461.2, RSMo).**
