ENGINEERING FIRMS

TAX MATRIX

INDUSTRY GUIDANCE

Category:	Engineering Firms	Tax Type:	Sales & Use Tax
Brief Description:	Engineering Firms Tax Matrix	Issuance Date:	07-19-2023
		Revision Date:	03-28-2025

The taxability of sales and purchases of tangible personal property and labor services by engineering firms are summarized below. While this document provides general information as to the taxability of sales and purchases of tangible personal property and labor services by businesses in the engineering industry, it may not necessarily cover every situation as the taxability may depend on facts and circumstances around the specific transaction. Should a more definitive determination be desired, businesses may request a letter ruling from the Department. [MODOR Letter Ruling Page](#)

This list is not all-inclusive.

Missouri sales or use tax applies to those purchases identified or designated as taxable in the chart below. The applicable Missouri sales or Missouri consumer's use tax must be paid to the vendor or accrued and remitted directly to the Missouri Department of Revenue. Purchases from Missouri vendors should be reported using the retailer's sales tax return. Purchases from outside this state which are delivered to this state are to be reported on the Missouri consumer's use tax return.

Note: In the purchases section below, there are some references to whether or not the business is an "Engineering Firm Headquartered in this State". That phrase is found in an exemption, Section 144.030.2(28), for purchases of computers, computer software, and computer security systems by architectural or engineering firms "headquartered in this state".

The phrase "headquartered in this state" is defined to mean the office for the administrative management of at least four integrated facilities operated by the taxpayer is located in Missouri.

In counting the facilities to reach or exceed the number of four, the following criteria should be kept in mind.

- Do not count temporary sites set up at customers' locations.
- Adjacent buildings count as one location, even if they have two or more separate addresses.
- Employees who work from home would not count as a separate location.

Sales by Engineering Firms including but not limited to: Electrical, Mechanical, Automotive, Aerospace, Chemical, Mining, Civil Engineering etc.

Sales by Engineering Firms:	Taxable/Exempt
Sales of engineering services and reports	Exempt
Drafting and design services	Exempt
