EXAMPLE

Part C - Attach Your Taxable Equipment Listing with KWH Usage (and exempt equipment listing if necessary)

Please calculate the hours used on each piece of taxable equipment for the full calendar year. The calculations in Part C are for the purpose of calculating the exemption under Section 144.030.2(12), RSMo, and should not take into account the additional exempt electricity under [Section 144.054.2, RSMo](#).

Section 144.030.2(12), RSMo, exempts from state and local sales tax “electrical energy used in the actual primary manufacturing, processing, compounding, mining or producing of a product, or electrical energy used in the actual secondary processing or fabricating of the product, or a material recovery processing plant as defined in subdivision (4) of this subsection, in facilities owned or leased by the taxpayer, ... if the raw materials used in such processing contain at least twenty-five percent recovered materials as defined in Section 260.200, RSMo.”

Section 144.054.2, RSMo, effective August 28, 2007, exempts from state sales tax “electrical energy used or consumed in the manufacturing, processing, compounding, mining, or producing of any product or used or consumed in the processing of recovered materials ...” If total exempt electricity after taking into account the additional exempt usage per Section 144.054.2, RSMo, is at least 76% of total usage, the electricity is 100% exempt from state tax. Therefore, electricity that does not qualify for the state and local sales tax exemption under Section 144.030.2(12), RSMo, is subject to local sales tax only.

Part D - Computation of Percentage of Electricity Used

Estimated Usage		KWH	Percentage
A. Total Electricity Used (taken from suppliers bills)	A		100%
B. Taxable Electricity Used	B	(Part C Total)	(B÷A)
C. Exempt Electricity Used	C	(A–B)	(C÷A)

Final Return: If this is your final return, enter the close date below and select the reason for closing your account. The Sales Tax law requires any person selling or discontinuing business to make a final sales tax return within fifteen (15) days of the sale or closing.

Complete Part E, Page 3, prior to signing the return.

If you do not qualify, it is your responsibility to notify your utility provider, withdraw your exemption, and remit the appropriate tax to the state. Under penalties of perjury, I declare that I have direct control, supervision or responsibility for completing this return. I attest that I have no taxable utility purchases to report for locations left blank.

If you pay by check, you authorize the Department of Revenue to process the check electronically.
Any check returned unpaid may be presented again electronically.

Sign and Date Return: This must be signed and dated by the taxpayer or by the taxpayer's authorized agent.

This form presumes that the electricity used in manufacturing under Section 144.054.2, RSMo is at least 76% of total usage and therefore, 100% exempt from state tax after August 27, 2007. If not, then additional calculations not shown here are necessary to determine the amount of electricity to report subject to the full sales tax rate and the amount of electricity to report subject to the local tax rate only.
