

# October 15 Deadline

The Missouri Department of Revenue is reminding taxpayers that October 15 is the extended deadline for calendar year 2017 tax filings. In some cases, recent changes to the federal tax code may be making filing taxes more complex and cumbersome. While the Department will not be issuing a further extension, we will be considering requests for abatement of any additions to tax for timely filing failure resulting from federal tax changes. Each request will be reviewed on a case-by-case basis.
